4. Annafi Nur Jayani
5. Kaira Nur Azizah

Chapter 1: Introduction - The Problem & Opportunity

Problem Statement

West Bogor Regency faces **restricted access** to **Bank Mandiri**'s **financial services** (limited physical branches and no online credit applications). Combined with **low financial literacy** which is causing a rise in **non-performing loans (NPL).**

- 30+ Bank Mandiri branches and ATMs are heavily concentrated only on high-density areas (Leuwiliang, Cibungbulang, Dramaga, Ciampea).
- Financial literacy in rural areas is lower (59.60%) compared to urban areas (around 70.89%)
- As of May 2025, the national MSME NPL ratio reached 4.49%, rising from 3.76% in December 2024

Chapter 2: The Solution - A Scalable Digital Platform for Bank Mandiri

Solution Overview

Developing **digital services for MSMEs credit application (KUR, KUM)** with **integrated professional financial advisory features** to help improve customer financial literacy and reduce Non-Performing Loans (NPL).

Key Benefits:

Easier and faster credit access

Boosting Local Economic Growth

Increased financial literacy

Chapter 3: Go-To-Market Strategy - Launch & Growth

Go-To-Market Strategy

Launch Strategy

- **Pilot Program in West Bogor**
  - Target 1,000 MSMEs in West Bogor over 3–4 months
  - Track key metrics: application completion rate, time to approval, advisor engagement
- **Early-Adopter Incentives**
  - Waive the first administration fee for the initial 100 MSMEs
  - Offer two complimentary one-on-one advisory sessions
  - Provide branded cheat sheets and FAQ guides to simplify onboarding
- **Advisor-Led Onboarding Workshops**
  - Deploy trained Bank Mandiri advisors to local branches and partner community centers
  - Host small-group “how-to” sessions covering the mobile app, eKYC process, and progress tracker
- **Soft-Launch Feedback Loop**
  - Invite Bank Mandiri staff and select corporate clients into an internal beta
  - Collect feedback via in-app surveys, user interviews, and support-ticket analysis to refine UX/UI and workflows

Go-To-Market Strategy

Distribution Channels

- **Mobile Application (MandiriNext)**
  - Publish on App Store & Google Play.
  - Integrate single-sign-on with Livin' by Mandiri and Mandiri Online.
- **Online Banking Portal**
  - Add a dedicated menu tile on Mandiri Online web and desktop interfaces.
  - Display contextual banners promoting "MSME Loan App" on login and dashboard pages.
- **Branch Network & ATMs**
  - Place QR-code posters in all West Bogor branches and ATMs, linking directly to the app store page.
  - Train tellers to introduce the solution during MSME account visits and cash-deposit transactions.
- **Digital Marketing & Social Channels**
  - Send push notifications and SMS blasts to existing MSME customer segments.
  - Run targeted social-media ads focusing on success stories from pilot users.
  - Host live webinars on Facebook and YouTube, featuring product demos with real-time Q&A.

Go-To-Market Strategy

Adoption Strategy

Digital Financial Intensive Programs

- Loyalty points system (earn redeemable points through each transactions).

Partnership Acquisition

- Collaboration with local governments (digital literacy programs, simplifying business registration).
- Networking with MSME Cooperative (peer-to-peer referral programs and group training sessions).
- Integration with telecommunication providers (mobile phone numbers as digital identity, bundling programs).

Digital Literacy & Building Trust

- Financial Advisory services in MandiriNext.
- Community-Based Training (establish digital literacy sessions in local communities).
- Transparent Progress Tracking (real-time application status updates).
- Success Story Marketing (showcase local MSME success stories).

Go-To-Market Strategy

Scalability & Expansion

Technology Infrastructure Scalability

- Cloud-First approach (utilize Google Cloud's Platform to manage user growth from 1000 to 50.000+ users).
- Implement open banking APIs to enable integrations and ecosystem expansion.
- Integrate chatbot using AI powered automation.
- Personalized loan products based on industries.

Geographic Expansion Strategy

- **Phase 1 (6-12 months)**: focus on achieving 2,000-3,000 users in West Bogor Regency.
- **Phase 2 (12-24 months):** expansion to Bogor Regency targeting 5.000-10.000 more users.
- **Phase 3 (24-48 months):** expansion to West Java areas.
- **Phase 4 (48-72 months):** Extend services to other provinces across Indonesia, especially regions with low financial inclusion and large MSME populations.

Chapter 4: Business Model & Revenue Streams

Business Model Canvas

MY DIGITAL ACADEMY

Key Partners

- IT Team
- Bank Mandiri's Financial Advisory Team
- Marketing Team
- Involved MSMEs

Key Activities

- Credit application service via mobile
- Financial/credit consultation

Key Resources

- Mobile Application
- Financial advisors
- Branch offices capabilities

Value Propositions

- Easier credit access for MSMEs
- Financial advisory services for MSMEs
- Transparent verification progress

Customer Relationships

- Credit consultation services with professional
- Data transparency
- Easy service access via mobile application
- 24/7 AI chatbot available

Channels

Mobile Application

Customer Segments

Retail:

- Micro
- Small Medium Enterprises (SME)

Cost Structure

- Application development
- IT operational costs (chatbot, application maintenance, cloud fees)
- Compensation for financial advisory personnel

Revenue Streams

- Loan interest
- Financial advisory service charge

Chapter 5: Risk Assessment & Mitigation

Risk Assessment & Mitigation

	Risk Assessment	Mitigation Plan
1	User Data Leakage	Conduct regular data audits by the IT/developer team, educate users about data privacy protection, and enforce regulations.
2	Non-Performing Loans (NPL) / Payment Defaults	Provide Financial Advisory services to help MSME owners manage their business finances effectively and avoid payment defaults.
3	Fraud / Fake Applicants	Maintain a field verification team to check applicant eligibility and authenticity, and enhance the app with anomaly detection bots to identify suspicious activities.
4	Market Competition with Other Banks	Develop unique features not offered by competitors, such as integrated Financial Advisory services.
5	Service Charges Concern	Focus on offering valuable new features that meet MSME needs, manage interest rates competitively according to market standards and government regulations, and ensure Financial Advisory services provide clear benefits.
6	UI/UX Issues (User Interface & Experience)	Provide comprehensive user education, include a responsive chatbot for real-time assistance, and continuously improve the app based on user reviews and feedback.

Risk Assessment & Mitigation

	Risk Assessment	Mitigation Plan
7	App Maintenance Cost	Develop a clear long-term budgeting plan for maintenance and updates. Prioritize feature upgrades based on user feedback and business impact.
8	Inaccurate Credit Risk Assessment	Combine digital assessment with selective offline verification for high-risk or high-value applicants.
9	Excessive Capital Expenditure (Capex) for App Development	Conduct thorough feasibility studies and financial projections before app development. Perform periodic financial performance reviews and ROI (Return on Investment) monitoring.
10	Limited Digital Literacy of Target Market	Conduct offline-to-online education campaigns through local community events, MSME workshops, and rural banking agents.
11	Failure to Meet New Mortgage (KPR) Acquisition Targets	Integrate targeted marketing and offline-to-online education campaigns. Collaborate with branch staff and property agents to encourage app adoption
12	Regulatory Compliance Gap	Involve compliance and legal teams from the early stages of app development and feature rollouts.

Chapter 6: Financial Feasibility & Pricing Strategy

Financial Feasibility & Pricing Strategy

Cost structure breakdown

- 1 advisor serves **50 MSMEs**
- Operational costs include cloud services, chatbot, maintenance, and marketing
- Application is **advanced-level**, ready for scale (1,000–3,000 users)

Pricing Strategy

- Number of MSMEs (registered) in Bogor Regency: 35.524
- Estimated projection of the number of MSMEs in West Bogor Regency: around 10.000
- Potential KUR and KUM clients in West Bogor: 1000 to 3000 MSMEs

Financial Feasibility & Pricing Strategy

One-Time Development Cost

Component	Estimated Cost	Description
UI/UX Design & Research	Rp50,000,000.00	Full user flow, multi-role design
Mobile & Backend Development	Rp200,000,000.00	Advanced loan features, scalable backend
API Integration & Security	Rp80,000,000.00	QRIS, OTP, chatbot, eKYC, audit
QA & Penetration Testing	Rp30,000,000.00	UAT + security vulnerability scan
Deployment & Cloud Setup	Rp20,000,000.00	GCP setup, CI/CD pipeline, domain
Advisor Training & Modules	Rp20,000,000.00	Internal SOP, LMS content

Total One-Time Cost: Rp400,000,000.00

Financial Feasibility & Pricing Strategy

Monthly Operational Costs

Component	Cost/Month	Cost/Year	Description
Cloud Hosting & Firebase	Rp7,000,000.00	Rp84,000,000.00	High-traffic cloud infra
Chatbot, API, OTP	Rp4,000,000.00	Rp48,000,000.00	WhatsApp, Dialogflow, Twilio
Maintenance Developer	Rp5,000,000.00	Rp60,000,000.00	Dev on-call for updates
Digital Marketing	Rp8,000,000.00	Rp96,000,000.00	Social media, awareness
Advisor Field Ops	Rp4,000,000.00	Rp48,000,000.00	Transport, materials

Total Monthly Ops Cost: Rp28,000,000.00

Annual Operational Cost: Rp336,000,000.00

Financial Feasibility & Pricing Strategy

Advisor Salary

- Advisors are newly recruited full-time employees under Bank Mandiri, assigned specifically to support the MSME financing program on the ground.
- Each advisor is responsible for assisting around **50 MSMEs**, enabling more personalized and hands-on support.
- Each advisor receives a monthly salary of **Rp5,000,000** or **Rp60,000,000** per year.

Case	UMKM	Est. Advisor	Gaji/Orang/Thn	Total Salary
Case 1	3,000	60	Rp60,000,000.00	Rp3,600,000,000.00
Case 2	2,000	40	Rp60,000,000.00	Rp2,400,000,000.00
Case 3	1,000	20	Rp60,000,000.00	Rp1,200,000,000.00

Financial Feasibility & Pricing Strategy

Final Total Cost Breakdown – Year 1

Component	Case 3 (1,000 UMKM)	Case 2 (2,000 UMKM)	Case 1 (3,000 UMKM)
One-Time Cost	Rp400 million	Rp400 million	Rp400 million
Annual Ops Cost	Rp336 million	Rp336 million	Rp336 million
Advisor Salary	Rp1.200 million	Rp2.400 million	Rp3.600 million
Total Cost (Year 1)	Rp1.936 billion	Rp3.136 billion	Rp4.336 billion

Financial Feasibility & Pricing Strategy

Revenue Model

- Interest Revenue Mode: loan interest (KUR: 6%/year, KUM: 0,99%/month)
- Fee-Based Revenue Model: administration fee (50k - 100k), provision (0,5% -1%)

Pricing Strategy

- Credit allocation between KUR and KUM: 70% KUR (20% Super Micro, 30% Micro, 20% Small) and 30% KUM (20% Micro, 10% Small).

Credit Type	Average Loan Amount
KUR Super Mikro	Rp7 million
KUR Mikro	Rp30 million
KUR Kecil	Rp200 million

Credit Type	Average Loan Amount
KUM Mikro	R25 million
KUM Kecil	Rp100 million

Financial Feasibility & Pricing Strategy

Case 1: 3000 MSMEs

KUR

Aspect	Pricing & Detail
Interest Rate (6%/year)	Rp2.592.000.000,00
Administration Fee (50.000 - 100.000)	Rp135.000.000,00
Provision (0,5% - 1%)	Rp276.000.000,00
Total	**Rp3.003.000.000,00**

KUM

Aspect	Pricing & Detail
Interest Rate (0,99%/month)	Rp3.742.200.000,00
Administration Fee (50.000 - 100.000)	Rp60.000.000,00
Provision (0,5% - 1%)	Rp105.000.000,00
Total	**Rp3.907.200.000,00**

Total revenue/year: Rp6.910.200.000,00

Financial Feasibility & Pricing Strategy

Case 2: 2000 MSMEs

KUR

Aspect	Pricing & Detail
Interest Rate (6%/year)	Rp1.728.000.000,00
Administration Fee (50.000 - 100.000)	Rp90.000.000,00
Provision (0,5% - 1%)	Rp184.000.000,00
Total	**Rp2.002.000.000,00**

KUM

Aspect	Pricing & Detail
Interest Rate (0,99%/month)	Rp2.494.800.000,00
Administration Fee (50.000 - 100.000)	Rp40.000.000,00
Provision (0,5% - 1%)	Rp70.000.000,00
Total	**Rp2.604.800.000,00**

Total revenue/year: Rp4.606.800.000,00

Financial Feasibility & Pricing Strategy

Case 3: 1000 MSMEs

KUR

Aspect	Pricing & Detail
Interest Rate (6%/year)	Rp864.000.000,00
Administration Fee (50.000 - 100.000)	Rp45.000.000,00
Provision (0,5% - 1%)	Rp95.500.000,00
Total	**Rp1.004.500.000,00**

KUM

Aspect	Pricing & Detail
Interest Rate (0,99%/month)	Rp1.247.400.000,00
Administration Fee (50.000 - 100.000)	Rp20.000.000,00
Provision (0,5% - 1%)	Rp35.000.000,00
Total	**Rp1.302.400.000,00**

Total revenue/year: Rp2.306.900.000,00

Financial Feasibility & Pricing Strategy

Break Even Analysis

Case	Revenue	Cost	Profit	Margin	Break-Even Time
Case 1	Rp6.91 B	Rp4.34 B	Rp2.57 B	37.30%	7.5 months
Case 2	Rp4.61 B	Rp3.14 B	Rp1.47 B	31.90%	8.2 months
Case 3	Rp2.31 B	Rp1.94 B	Rp370 M	16.10%	10.1 months

Case 1 (3,000 MSMEs) shows the best performance with total annual revenue **Rp6.91 B** or approximately **Rp 575.83** Million per month, achieving margin of **37.30%**—ideal for the digital banking sector, with the **fastest break-even point of 7.5 months**, indicating efficiency and profitability.

Market Viability Analysis

Desirability Analysis

⚠️ **Problem**

Limited access to Bank Mandiri credit services

Rising NPL due to low financial literacy

💡 **Solution**

Mobile-based credit application
+
financial advisory for MSMEs

📊 **Target Users**

1.000–3.000 MSMEs in West Bogor (from estimated 10.000)

✅ **Value Proposition**

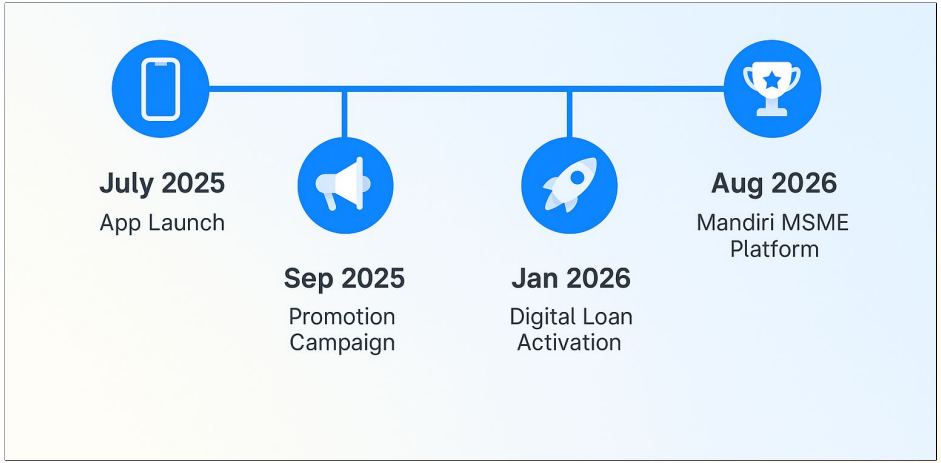
Fast, easy, educational, and safe-trusted alternative to illegal loan apps

Market Viability Analysis

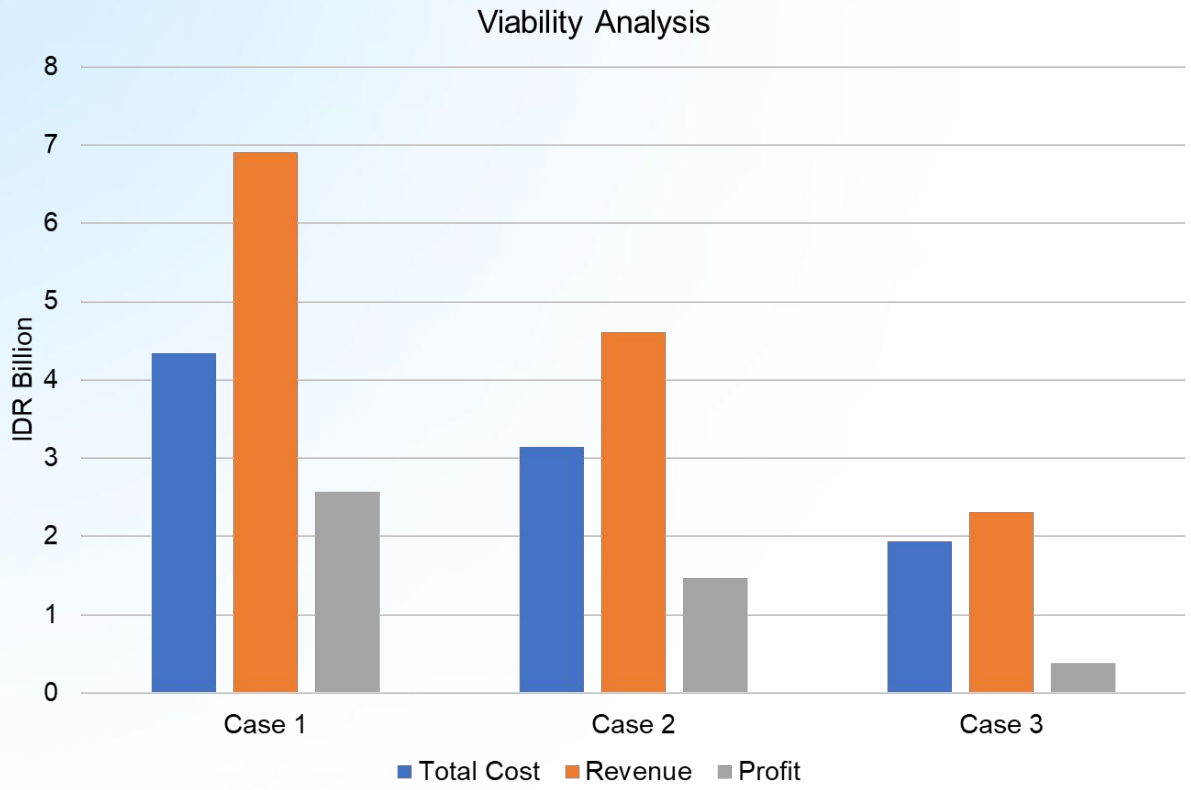
Feasibility Analysis

🔧 Infrastructure	👥 Human Resources
Advanced mobile app with AI chatbot, eKYC (**Electronic Know Your Customer**), and loan tracking	Professional advisors (1 per 50 MSMEs)

🗓️ Launch Timeline



Market Viability Analysis



- The business model demonstrates strong profitability, especially in Case 1 scenario.
- Even with just 1,000 MSMEs, the application still generates profit and remains financially viable.

Market Viability Analysis

Conclusion & Recommendations

🧪 Conduct Digital Readiness Surveys

Assess how prepared MSMEs in West Bogor are to adopt digital platforms. This helps validate the potential adoption rate before broader rollout.

📲 Strengthen Social Media & Educational Campaigns

Raise awareness and build trust through digital content. Focus on showcasing key app features, answering common concerns, and guiding users toward their first transaction

🎯 Promote Safe Digital Alternatives to Online Loan Platforms

Position the app as a secure, trustworthy solution compared to high-risk informal lending apps. Emphasize legal compliance and protection under Bank Mandiri's ecosystem.

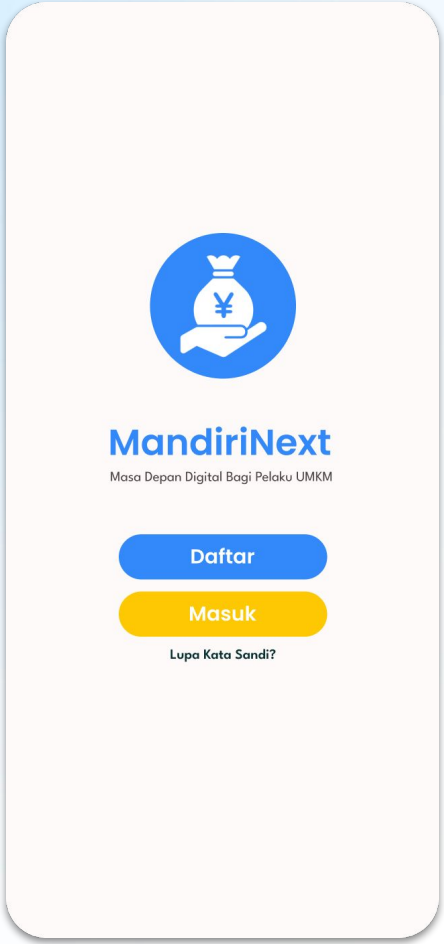
🤝 Partner with App Store & Play Store

Ensure easy access to the app through trusted digital distribution channels, increasing reach and credibility among users.

👥 Train Advisors & Prioritize User Onboarding

Equip financial advisors with practical and communication skills to guide MSMEs effectively. A simple and welcoming onboarding experience helps users feel comfortable and engaged.

Chapter 7: Prototype - Demonstrating the Solution

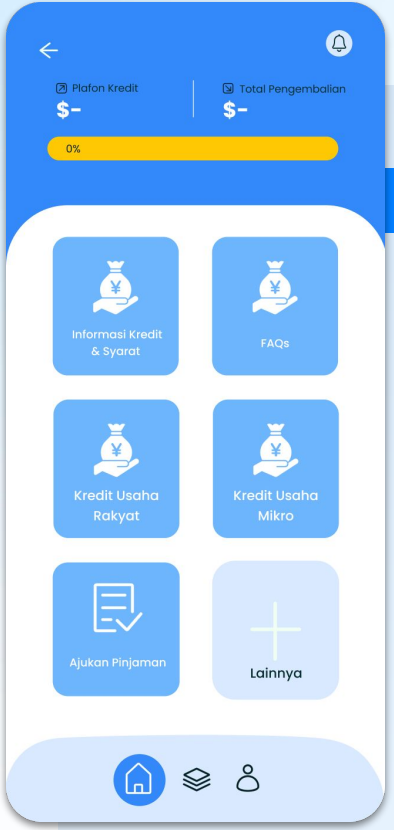


Prototype Section

MandiriNext is a digital financial service application, specifically designed to simplify credit application processes and provide financial advisory services for MSMEs (Micro, Small, and Medium Enterprises).

The app aims to offer seamless, transparent, and accessible financial services via a mobile platform.

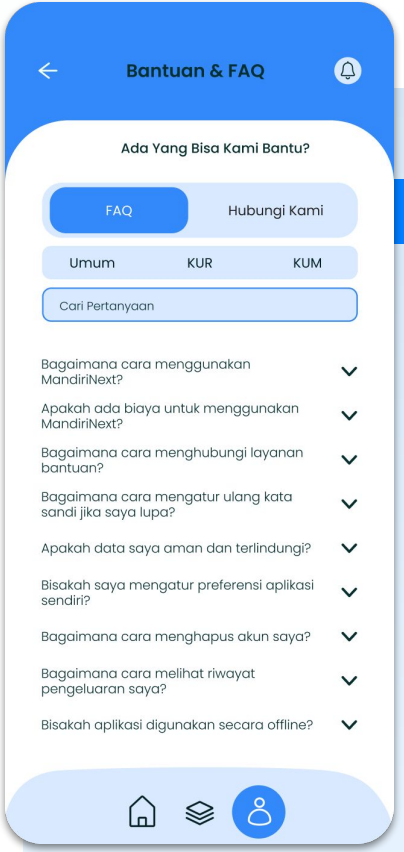
Prototype Section



Main Dashboard

Displays **the credit plafond and total repayment** status progress.

Key menu options : Credit Information & Requirements, FAQs, and Loan Application Form, etc



Help & FAQ Section

Divided into categories: General, KUR, and KUM

Search bar for users to quickly find answers.

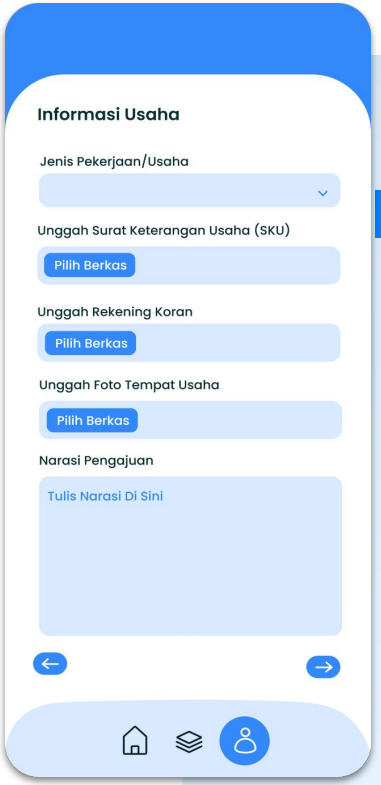
Prototype Section

Personal Data Entry Screen

Provides a clear, structured form for **capturing applicant identity information** for verification purposes.

Allows applicants to:

1) Upload a profile photo
2) Enter their full name
3) Enter ID number (NIK)
4) etc.



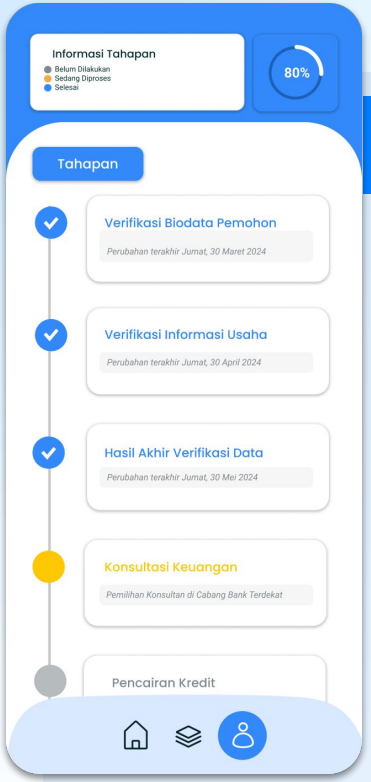
Business Information Entry Screen

Ensures applicants provide complete, **verifiable data to process credit applications.**

Applicants can:

1) Select their type of business/work
2) Upload supporting documents
3) Enter a narrative description explaining the purpose of the loan or additional business details.

Prototype Section

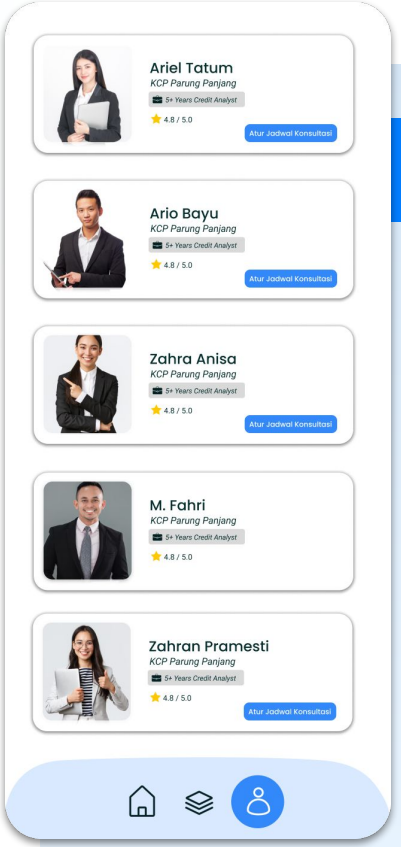


Application Progress Tracking Screen

Displays a step-by-step progress tracker indicating: Verification of Applicant Biodata, Verification of Business Information, Final Data Verification Results, and Financial Consultation Scheduling

Shows a percentage completion indicator (e.g., 80%)

Displays **timestamps** for each completed step to keep applicants informed.

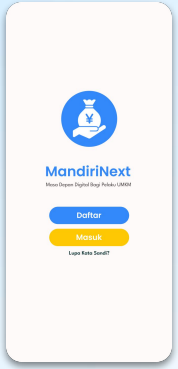


Financial Advisor Selection Screen

Lists available **financial advisors**

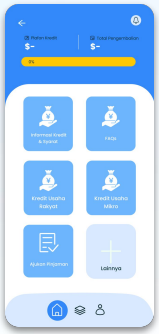
Allows applicants to select their preferred advisor for financial consultation after the verification process.

Key User Interactions & Service Flow



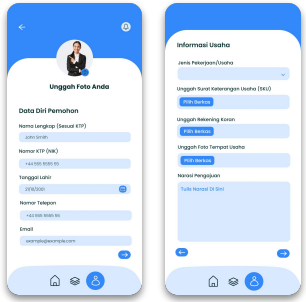
1 User Onboarding & Dashboard Access

- User Registration / Login via the mobile app
- Redirected to the Main Dashboard



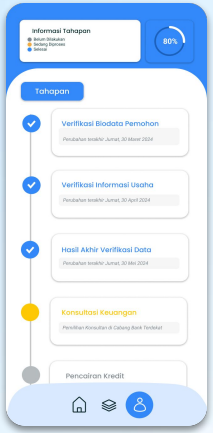
2 Browsing & Understanding Loan Options

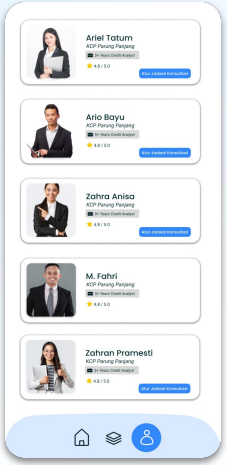
- Browse available credit products (e.g., KUR, KUM, Mikro)
- Read product requirements & eligibility info
- Decide on the most suitable credit type to apply for



3 Loan Application Submission

- Navigate to ‘Ajukan Pinjaman’ (Apply for a Loan)
- On the Personal Data form screen: Upload personal photo, and fill in full name, NIK, birth date, phone number, and email
- Proceed to Business Information screen
- Submit the completed form to enter the verification stage





4 Application Verification Progress Tracking

- User directed to the **Application Progress Tracker**
- Can monitor status in real-time. See which steps are completed.
- View date/time each step was processed
- See overall progress percentage bar

5 Financial Advisory Selection & Consultation

After final verification:

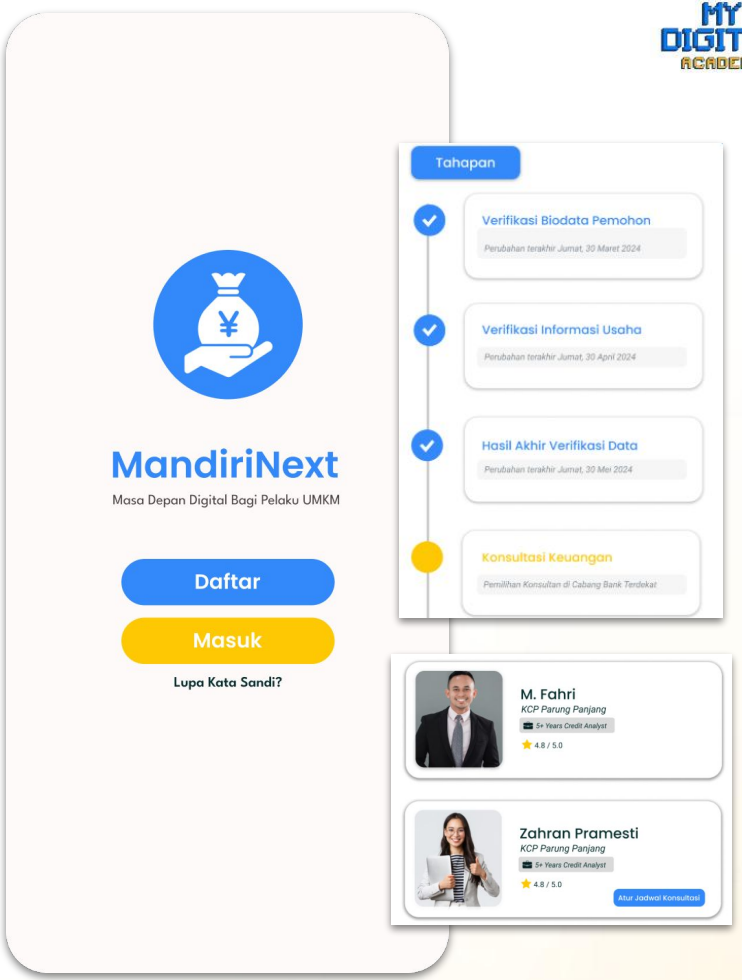
- User proceeds to **Financial Advisory Selection screen**
- Browse list of available financial advisors:
  - Check advisor profile, rating, and branch
  - Tap **'Book Consultation'** to schedule a session

6 Post-Approval Service & Support

- Access loan disbursement status & repayment tracking on dashboard
- Use Help Center & FAQs anytime for guidance
- Continue accessing financial advisory services during the loan tenure for business or financial advice

Alignment with Business Model

- Digital credit application service
- Financial consultation via advisory team
- Transparent loan progress tracking



Final Recommendation

Final Recommendations & Next Steps

Main Point :

📢 Marketing through social media

🔍 Research on the readiness of potential users

🤝 Collaboration with Appstore & Playstore

🎨 Attractive & easy-to-use appearance

💼 Easy solution to apply for loans

🔒 Safe & legal, different from "pinjol"

🏦 Additional SME services outside of Livin'

🌐 Encourage the first online transaction for users

🧠 There is a Financial Advisory feature

🏁 Target: to become a single application for the Mandiri SME sector

Final Recommendations & Next Steps

Risk & Challenges :

❗ Trust issues due to the stigma of “illegal online loans”

🔄 Changes in user behavior to digital

⚔️ Competitors from non-application microcredit

🐞 Risk of bugs & technical constraints

💸 Perception of higher interest

Period	Stages	Explanation
July 2025	🚀 **Application Launch**	The official app is released to the public for initial use.
September 2025	📣 **Marketing & Advertising**	A large-scale promotion was carried out for a single application from Mandiri.
November 2025	🔁 **Offline to Online User Migration**	Education and encouragement for offline users to switch to digital platforms.
January 2026	💳 **Loan transactions via application**	Most loan transactions are starting to be done digitally.
August 2026	🏆 **Mandiri Single Application for SME Loans**	The application fully functions as the main platform for loans for the MSME sector.
