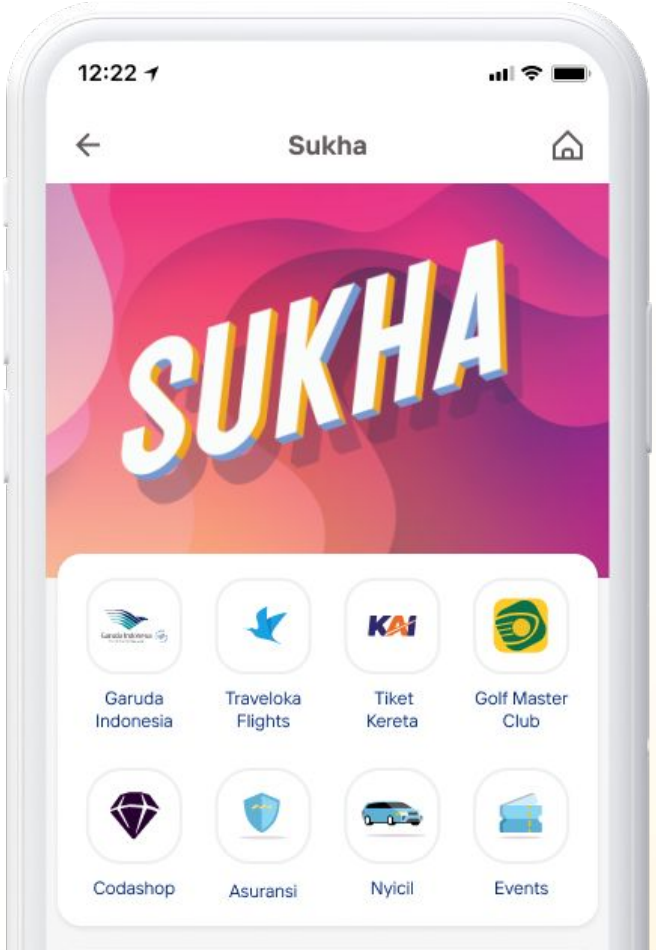
Business Insight Report

Livin' Sukha

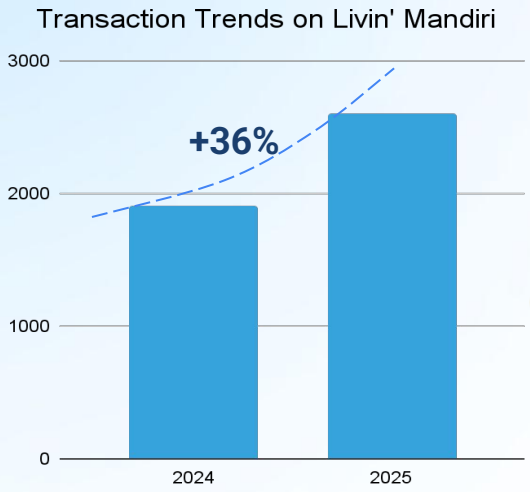
Livin' Sukha is positioned as **a feature that drives more daily transactions**, especially as it offers services such as purchasing concert tickets, food, and even healthcare services.



Problem Statement

In Bank Mandiri's annual report, the absence of performance reports presented in a separate segment specific to Livin' Sukha reduces transparency and makes it difficult for investors to assess the financial contribution of the feature. In addition, Bank Mandiri's financial efficiency indicators show a decrease, which includes an **increase in Operating Expenses for Operating Income (BOPO) by 4.58% YoY** and **a decrease in Net Interest Margin (NIM) by 5.15% YoY**, resulting in **a decrease in Return on Equity (RoE) by 3.12% YoY**, which has the potential to discourage investors from investing, hence hindering the development and growth of Livin' Sukha and other Bank Mandiri products.

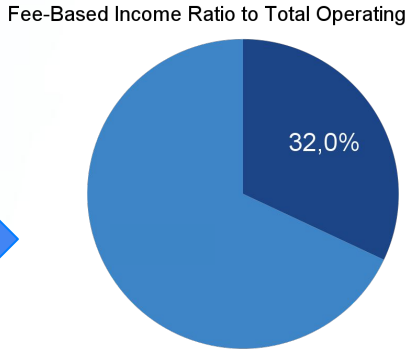
Financial Trends

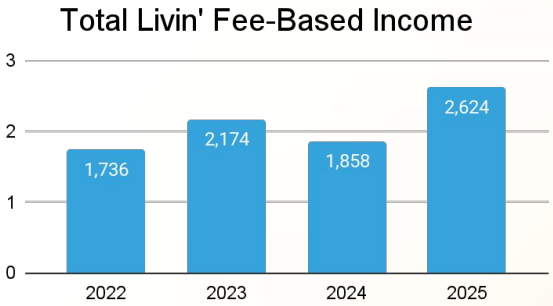


Has been downloaded **34 million times**

The adoption of Bank Mandiri's digital products continues to grow, with customers becoming increasingly comfortable transacting through digital services.

Livin' Sukha, one of the business ecosystems in Livin' Mandiri...





...helping to increase **fee-based income**, thanks to non-financial features that continue to drive customer activity in the application. It grew to **15% yoy** (year-on-year).

Growth Opportunities

Multi-service Integration in One Platform

Livin' Sukha functions as a lifestyle marketplace platform within the banking application, ranging from concert tickets, transportation tickets, to vehicle installments and booking health check-ups.

Strategic Collaboration

Mandiri collaborates with lifestyle brands and major events, boosting customer engagement and increasing non-financial transactions.

Expansion into Millennial and Gen Z Segmentation

With a fun and socially relevant approach, Livin' Sukha attracts digital-native generations who want quick and comprehensive solutions.

Monetization from Beyond-Banking

The potential for cashback, bundling, loyalty points, and even cross-selling to financial products like home loans (KPR) and credit cards.

Opportunity to Become a New Social Media Platform

Providing a complete lifestyle experience through entertainment and educational content, such as articles, live streams, and reels.

Opportunity to Attract Low-Cost Funds (CASA) from Digital Customers

Through the Livin' Sukha service, users will transact more frequently and open new accounts, which directly contributes to increasing low-interest savings funds (CASA).

Performance Gaps

UX and Navigation Challenges

More features can risk decreasing the simplicity of the user experience if not designed intuitively.

Intensive Competition within the Super App.

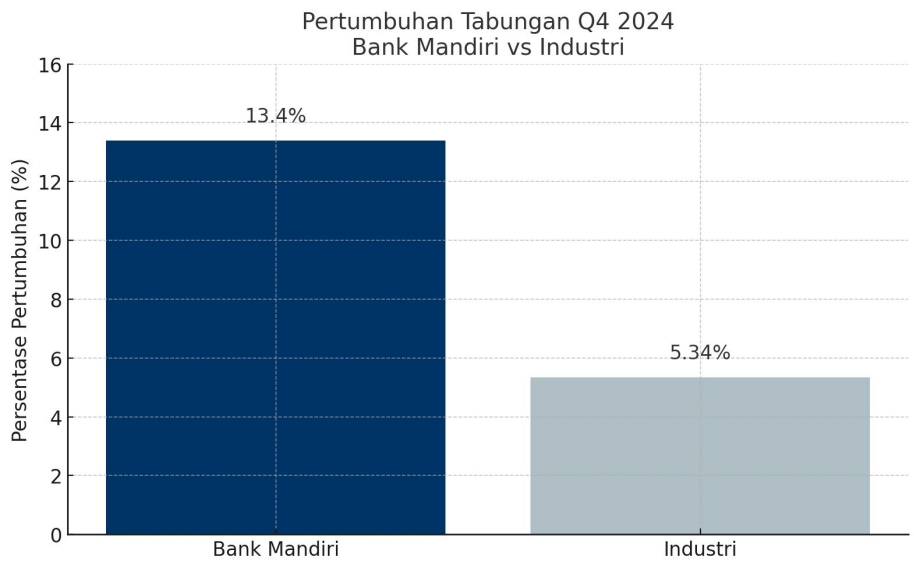
Challenges from other platforms (like Shopee, Gojek, or competing digital bank apps) make emotional and functional differentiation crucial.

Data Security Issues

With access to lifestyle data, privacy protection becomes a technical and reputational challenge that must be continuously maintained.

Key Financial Insights

Market Penetration



User Adoption

👤 Users increased by 29%
📈 Transaction grew by 38%
📲 85% new bank accounts were opened
💸 99% of retail non-cash transactions were processed
🎉 Livin Sukha Introduced as a beyond banking lifestyle features

Revenue Contribution

Revenue Contribution by Segment

2. Third-party funds
3. Kopra by Mandiri or Wholesale product

Customer Journey & Pain Points

Customer Segment: Retail - Individual

Aspect	Awareness	Consideration	Decision	Loyalty
Sentiment	Desiring to have a banking product for lifestyle transactions.	Evaluating Livin' Sukha as one of the options.	Choosing Livin' Sukha as the banking product used for lifestyle transactions.	Maintaining a long-term relationship with Livin' Sukha.
Actions	Searching for information about the product online or by asking peers.	Comparing Livin' Sukha services with other banking products, reading reviews about Livin' Sukha.	Registering an account and starting to use features in Livin' Sukha.	Choosing Livin' Sukha as a financial partner especially for long-term lifestyle transactions.
Demands	Knowing the available banking products and services offered.	Understanding advantages, benefits, reputation, and guaranteed security.	Ease of accessing the app and conducting transactions.	Continuous benefits as a loyal customer, and personalized service.
Touchpoint	Bank Mandiri website, Bank Mandiri social media, peers who are Bank Mandiri customers, articles/news.	Bank Mandiri website, Play Store reviews, online review platforms, Bank Mandiri social media.	Livin' by Mandiri application.	Livin' by Mandiri application, user community, events organized by Bank Mandiri.
Pain Point	Information is too broad, making it not specific to customer needs.	Unclear feature information, unconvincing testimonials, more popular competitors.	Difficulty finding certain features.	Stagnant innovation, competitors offering better deals and experiences, no benefits for loyal customers.
Opportunities	Advertising Livin' Sukha products on various platforms, introduce Livin' Sukha through social media content.	Providing consulting features for Livin' Sukha through Call Center/Bank Mandiri social media, creating content about customer impressions and experiences using Livin' Sukha, including comprehensive feature info on Bank Mandiri's website.	Simplifying the registration process and minimizing errors/bugs.	Tiered loyalty programs and rewards, continuous innovation.

Conclusion

Conclusion

Livin' Sukha, as part of the Livin' by Mandiri digital application, has shown significant growth through the integration of lifestyle services. Features such as ticket booking, installments, and health services contribute to an increase in fee-based income and high user adoption (up 29%). However, there are several important challenges, such as:

There's no specific financial performance report for Livin' Sukha in the annual report, which reduces transparency for investors.

An increase in the BOPO ratio of 4.58% and a decrease in NIM of 5.15% led to a 3.12% decrease in RoE.

UX complexity and data security risks, as well as super app competition from other platforms.

Conclusion

Future Recommendations

1. Transparency in Reporting
2. UX Simplification
3. Data Security Strengthening
4. Loyalty & Engagement Strategy
5. Collaboration & Monetization

Final Thoughts

Livin' Sukha represents the digital transformation of banking that not only fulfills financial needs but also extends into the lifestyle of modern consumers. If managed optimally and transparently, this feature can become one of Bank Mandiri's competitive advantages in attracting digital generations and increasing its low-cost fund (CASA) base.
